www.linkedin.com/in/hamselljimenez - https://github.com/hjmnz-dev

Results-driven Software Developer with solid hands-on experience building practical solutions that streamline processes and deliver real business value. I work with JavaScript and .NET to develop reliable applications, automate workflows, and create enterprise solutions using Power Platform (Power Apps, Power Automate, and Power BI).

I have strong experience designing and integrating RESTful APIs, applying DevOps practices to support efficient deployments, and a genuine interest in Artificial Intelligence as a tool to improve efficiency, data analysis, and smarter decision-making. Focused on delivering clear, effective solutions aligned with real-world business needs.

Experience

- **DevOps Analyst at Seaboard Transcontinental Capital Corporation [06/2024] - present:** responsible for the design, development, and support of web applications and automated solutions aimed at improving traditional business processes and making them more efficient. Technologies used: Python, JavaScript (Node.js, React, Angular, Express.js), SQL Server, MongoDB, MS Power Platform (Power Automate, Power Apps, Power BI, SharePoint), RESTful APIs, Web Services, Azure DevOps, GitHub & Git, MS 365 (Word, PowerPoint, Excel), AI tools, and agile methodologies.

- **Bilingual Customer Service Representative at Teleperformace [12/2023] - [02/2024]:** specialized in resolving customer issues, using advanced English skills to ensure effective and empathetic communication. Excelled in handling complex inquiries, providing quick solutions, and maintaining high customer satisfaction standards in a dynamic and multilingual environment.

- **Internship at Technologyint [01/2022] - [06/2022]:** developed and maintained static web pages using basic frontend technologies like HTML, CSS, and JavaScript. Collaborated with the design team to ensure a modern and accessible user experience. Supported technical documentation and created basic visual content, which helped non-technical team members understand functionalities. Demonstrated fast learning and autonomy, received positive feedback from mentors, and actively contributed to real projects in a professional setting.
